<sup>1</sup> For OASDI-HI contribution rates and wage base, see table 2.A3. Beginning in 1952 (1959 for DI, 1968 for HI) employer and employee contributions differ by estimated amount of refunds of employee tax overpayments and, beginning in 1966, by employee tax on tips. For SMI premium rates, see table 2.C1.

<sup>2</sup> Represents cost of gratuitous military service wage credits and, for OASI only, Federal payments for special age-72 benefits. For HI only, also represents transfers of appropriations for HI benefits of persons not insured for cash benefits under OASI, DI, or Railroad Retirement and, beginning in 1978, transfers for Professional Standards Review Organization review expenditures. Beginning in 1983, includes taxes on deemed wage credits for military service performed after 1956, in lieu of reimbursements for the costs of such credits. For Railroad Retirement, represents transfers from appropriations for cost of military service credits and, beginning in 1976, cost of phasing out dual benefits exclusive of income tax transfers.

<sup>3</sup> Beginning in July 1973, aged ineligible may voluntarily enroll for HI.

<sup>4</sup> Includes premiums paid on behalf of eligibles by State governments under "buy-in" arrangements.

<sup>5</sup> Beginning in 1966, excludes HI contributions and includes employer contributions to supplemental benefit account.

<sup>6</sup> Amounts reflect U. S. Treasury reconciliations for prior years (1987-94).

<sup>7</sup> Employer share represents Federal and District of Columbia government contributions; employee share includes voluntary contributions to purchase additional annuity. Beginning in 1980, estimated by the Social Security Administration from fiscal year data.

<sup>8</sup> Estimated by Social Security Administration from Bureau of the Census fiscal year data. Employer share represents government contribution.
